

# Median U-Turn Intersection

- **Median U-Turn Intersection (MUT)**
  - Replaces direct left turns at an intersection with indirect left turns using a U-turn movement in a wide median.
  - Eliminates left turns on both intersecting streets
  - Reduce the number of traffic signal phases and conflict points
  - May result in improved intersection operations and safety

## Median U-Turn Intersection

- MUT with signals at the main intersection and two crossover locations
- MUT may also have signals at the main intersection but unsignalized crossovers
