

Route 5 Bridge Replacement over Herring Creek

Memorial United Methodist Church
11000 Courthouse Road, Charles City County, VA 23030
Charles City County

Project overview

Construction is to replace the John Tyler Memorial Hwy. (Rt. 5) bridge over Herring Creek in Charles City County. Crews have completed the eastbound portion of the bridge. It is currently open to traffic.

Challenges

Unanticipated plan changes, worksite concerns and weather issues have caused schedule changes and project delays.

Maintenance of traffic

A temporary traffic signal is guiding travel through a single lane over construction. Oversize vehicles can use the posted detour.

New schedule

Drivers will continue to see work on the westbound bridge performed through mid-January 2016. The contractor is being assessed penalties for schedule delays.
