

Concrete Plant Proficiency

To be recertified in Concrete Plant you must pass the on-line Concrete Plant Recertification Course and the Concrete Plant Proficiency. The Concrete Plant Proficiency is a written exam. Contact your District School Coordinator when you are ready to take the proficiency.

Following is a list of calculations you will be expected to perform and the chapters in the current Concrete Study Guide that you may want to review in preparation for this proficiency test.

Sieve Analysis and Fineness Modulus - Chapter 2

Mix Design and Mix Design Adjustment – Chapter 3

Free Moisture – Chapter 4

Mix Design Weights to Batch Weights – Chapter 4

Plant Portion of TL-28A Coding Form – Chapter 10
