REFERENCE – REQUEST FOR INFORMATION (RFI)

RFI # 106-FH-12 (Issued January 18, 2012)

PROJECT TITLE: VDOT Transportation Operations Centers and Advanced Traffic Management Systems Services¹

Thank you for your interest in the Virginia Department of Transportation's (VDOT) development of a procurement for services including the statewide Transportation Operations Center (TOC) services, Intelligent Transportation System maintenance services, and a single platform Advanced Traffic Management System solution, and/or other services.

VDOT is fully committed to this initiative. We have reviewed and considered the responses submitted by prospective proposers to the RFI issued on January 18, 2012. Based on this feedback, VDOT has decided to issue a Request for Proposal (RFP), a single phase procurement, for the operations and maintenance of the TOCs and other related services, with appropriate schedule adjustments.

The next step in our procurement process is to issue a Request for Proposal document. The RFP is targeted to be issued on May 21, 2012.

Thank you for your continued interest in this important initiative and we encourage you to visit VDOT and Office of Transportation Public-Private Partnership websites periodically to remain current and informed of the procurement process. Information concerning this procurement can be found on the following websites: www.eva.virginia.gov; http://www.virginiadot.org/business/traffic_operations_centers.asp or <http://www.vappta.org/projects.asp>

¹ Project Title corrected from original issuance (VDOT Transportation Operations Center and Advanced Transportation Management Systems Services)
