I-564 RUNWAY TUNNEL LIGHTING REPLACEMENT PROJECT TO BEGIN, POTENTIAL TRAFFIC IMPACTS

Motorists should expect lane closures beginning Friday, August 17

NORFOLK – Motorists should expect lane closures on Interstate 564 at the Runway Tunnel starting August 17 as the Virginia Department of Transportation (VDOT) begins a tunnel lighting replacement project.

The \$1.8 million project is expected to be complete in January and will require crews to close two lanes at a time, outside of peak travel times. Lane closures for the first two weeks will be as follows:

- Dual-lane closures on I-564 west, August 17 and August 21-23 from 9 a.m. to 5 p.m.

Westbound lane closures, headed towards Naval Station Norfolk, are planned for the daytime hours, to avoid peak traffic in the mornings. Eastbound lane closures, headed towards Interstate 64/Granby Street, are planned for the overnight hours to avoid impacting traffic leaving Naval Station Norfolk.

Crews will complete work in the westbound tube before beginning work in the eastbound tube.

Future lane closures and potential traffic impacts from this project may be viewed as part of VDOT's Weekly Lane Closures Report, which is available [here](#).
