Route 696 (Selma-Low Moor Road) - Karnes Creek Bridge

UPC 98957

Contract Value:

\$2,588,794

This project replaces the existing Karnes Creek bridges on Route 696 (Selma-Low Moor Road) and Route 1308 (Garland Road) with a single structure on Route 696.

Estimated Completion Date:

Fall 2021

Replacement of the Route 1308 bridge will require relocation of part of the roadway and development of a new intersection with Route 696.

Project Manager:

Jamie Robertson, P.E., 540-332-8981

The new bridge on Route 696 will be 65 feet long and 40 feet wide, with two 11-foot lanes and eight-foot shoulders. Relocating a portion of Route 1308 to a new intersection with Route 696 will eliminate the need for the current bridge on Route 1308.

There are no special accommodations on this project for bicycles and pedestrians.

A contract valued at \$2,588,794.41 was awarded to A. R. Coffey and Sons Inc. of Buchanan, Virginia. The contract award date was November 13, 2019.
