

Bentley Connection Client Job Aid

Logging Into the Bentley Connection Client

You must login to your Bentley connection client in order for your Bentley products to get a license – without a license the software may not work properly.

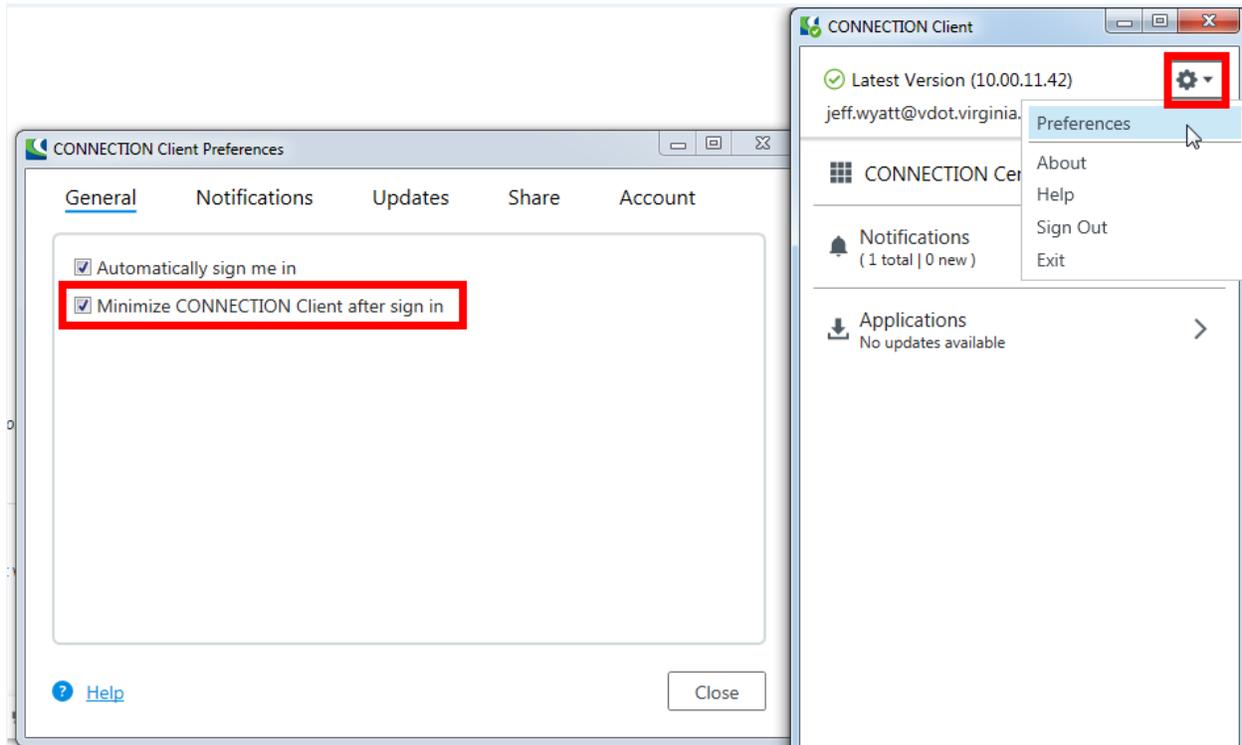

To login to the Bentley connection client you will use your full email address and just click in the Password field – this should automatically log you.

The screenshot shows a web browser window titled "CONNECTION Client". The Bentley logo is displayed at the top left. The main heading is "Sign In". Below this, there are two input fields: "Email" and "Password". The "Email" field contains the text "teresa.cantrell@vdot.virginia.gov". The "Password" field is empty. A green "Sign In" button is positioned below the password field. At the bottom of the form, there is a blue link that says "Why sign in?". A black footer bar at the bottom of the window contains the text "Forgot password?" and "New User? Register Now".

Bentley Connection Client Job Aid

Now that you are logged into the Connection Client, you will want to minimize it. To minimize the client go to Settings (cog wheel upper right hand), Preferences, and then check the “Minimize CONNECTION Client after sign in”. This will prevent the Connection Client from popping up each time that you logon to the computer. It will log you in and stay minimized in your bottom right hand corner.

You can confirm that it's still running by checking the bottom right of your screen.
