

Subsurface Utility Design and Analysis (SUDA) Training Classes

VDOT is currently offering training statewide for Bentley's new Subsurface Utility Design and Analysis (SUDA) software. These courses are being offered at no cost to VDOT employees and consultants.

Available Courses:

Subsurface Utilities Drainage Design (SUDA) – 3 Day

- Designers will learn how to layout, edit, compute and analyze drainage systems in the new GEOPAK OpenRoads environment.

Utility Engineering Training (SUDA) – 1 Day

- Designers will learn to layout proposed utilities and create utilities from 2D and 3D survey graphics.

Enrollment is through [VDOT University](#). Keyword search "SUDA." All courses will be available for consultant enrollment approximately 2 weeks before the start date.

Schedule of courses is as follows:

Course	Dates	Location	Consultant Registration Opens
Subsurface Utilities Drainage Design	November 15-17, 2016	NOVA District 4975 Alliance Drive Fairfax, VA 22030	Currently Open
Utility Engineering Training	November 18, 2016	NOVA District 4975 Alliance Drive Fairfax, VA 22030	Currently Open
Subsurface Utilities Drainage Design	November 30- December 2, 2016	Culpeper District 1601 Orange Road Culpeper, VA 22701	November 15, 2016
Subsurface Utilities Drainage Design	December 5-7, 2016	Central Office 1401 E. Broad Street Richmond, VA 23219	November 21, 2016
Utility Engineering Training	December 8, 2016	Central Office 1401 E. Broad Street Richmond, VA 23219	November 21, 2016
Subsurface Utilities Drainage Design	January 10-12, 2017	Hampton Roads District 1700 North Main Street Suffolk, VA 23434	December 27, 2016
