

Acknowledgements

The writers wish to express their appreciation to the Virginia Asphalt Association for the use of their material and expertise as well as instruction in this program. Their participation in this program not only makes the production of quality training materials possible, but improves the communication and cooperation between Industry and the Virginia Department of Transportation.

The writers also wish to thank:

The Joint AASHTO, FHWA, Industry Training Committee on Asphalt for the use of their training manual “HOT MIX ASPHALT CONSTRUCTION”.

The National Asphalt Pavement Association for the use of their videos.

The Asphalt Institute for their permission to use quotations, graphs, and illustrations from the “Asphalt Technology and Construction of Quality Hot Mix Asphalt Pavements”, and the “Asphalt Paving Manual”.

The LTAP for the use of their video on troubleshooting.

Scan Road Incorporation for their permission to use certain articles, tables and illustrations from the “Bituminous Slurry Surfaces Handbook”

The writers further express their gratitude to all the personnel of the Virginia Department of Transportation who participate in this program; without their expertise, diligence and support, this production would not be possible.

NOTE: This manual is a practical guide and not to be used as a source for VDOT specifications.

Table of Contents

Acknowledgements	i
Table of Contents	ii/iii
Examination Information	iv
Asphalt Field Agenda	v
Inspection	1 -9
Chapter 1 Surface Preparation	1-1 – 1-9
Chapter 2 HMA Delivery	2-1 – 2-12
Chapter 3 HMA Placement	3-1 – 3-31
Chapter 4 Joint Construction	4-1 – 4-16
Chapter 5 Compaction	5-1 – 5-18
Chapter 6 SUPERPAVE Construction	6-1 – 6-7
Chapter 7 Mat Problems and Segregation	7-1 – 7-16
Chapter 8 Density Testing	8-1 – 8-34
Chapter 9 Paving Math Problems	9-1 – 9-7
Answers To Study Questions	1- 38
Appendices	
A Virginia Test Methods	A-1 – A-13
VTM - 6	
VTM - 22	
VTM - 76	
B Specifications/ Special Provisions	B-1 – B-61
C. Proficiency Test	C-1 - C -15

Certification Requirements

Pass Written Examination -

- Show photo identification before taking exam
- Sign Technician Certification Application
- Open book test - 35 multiple choice questions including math.
- Four hours are allowed for the test.
- Passing score is 70 - one retest is allowed.
