The Division Administrative Services (DAS) section is committed to transparent, accountable procurement processes which ensure that the division’s business needs are met and that all potential suppliers are given fair and equitable treatment.

The following link provides access to the CO Materials Division Procurement Procedures and Processes document, its purpose is to provide division staff with a centrally located, accessible, and documented reference and accountability tool to the procurement procedures and processes used in procuring goods and services for the division. It also provides guidance on who the internal points of contacts are for division services.

This document will be updated by DAS as procedures and processes are amended.
