During a recent inspection of this structure the rocker bearings were found to be in the contracted position. As the inspection occurred during the warm summer months the rocker bearings should have been in the slightly expanded position so when winter temperatures arrive the bearings would have an adequate range of movement. The situation creates a potentially critical situation and one which needs to be addressed before winter arrives. This contract is being awarded on an emergency basis.

Order No.: E66  
Route: 11  
Project No.: 0011-077-755, P101, B613  
Contract ID No: C00106502B13  
Location: Route 11 Memorial Bridge over New River  
County: Pulaski  
Contractor: Lanford Brothers  
Amount: $60,481.00

Date Awarded: October 1, 2014

Sincerely,

Allen Williams  
Salem District Maintenance Engineer
