Written Notice of Emergency Force Account

May 23, 2014

Two structure failures were verified on approximately May 19, 2014 on Routes 15/29/17 and 17 in Fauquier County at the locations listed below. The structures are: an extremely deteriorated 110 feet of double line 24 inch CMP; and an extremely deteriorated 65 feet of a single line 60” CMP. Both locations are experiencing shoulder erosion caused by the condition of the pipe. If these pipes are not repaired promptly they could fail and require closure of heavy volume primary Routes as well as jeopardizing public safety. This work will be awarded on an emergency force account basis.

Route: 15/29/17, .15 miles north of Route 17 at Opal
Project: 0017-061-CU06114061
County: Fauquier
