## Written Notice Of Emergency Contract

Over a period of time and during a recent inspection, it was determined that the existing corrugated metal culvert has undermined and created an unsafe / hazardous condition for the travelling motorists along Alder School Road (Rte. 711) and would need to be replaced immediately. This warranted the District Infrastructure Section to address this situation immediately and start the process to execute an Emergency Force Account Contract.

The work consists of open cutting the roadway, shoring, installation of the triple 60-inch pipes, backfilling, raise grade to provide two-foot cover, outlet protection, stone and asphalt placement. Road will remain closed during construction and traffic will be maintained through a detour.
