

VDOT's Highway Contractor Subcontractor Only (SCO) Level

A firm with this level of prequalification works only as a subcontractor, or has not yet established or re-established its safety history nor work history to be fully prequalified. Review of an established safety history shall include, but not be limited to, the required three or more years of EMR ratings with an insurance company, an OSHA log history, and a strong safety philosophy.

Review of an established work history shall include, but not be limited to, the proven history of their organization to undertake a project involving the type(s) of work for which prequalification is requested, and access to the equipment to perform the requested type(s) of work.

With this level of prequalification, a firm normally is not allowed to bid to be awarded nor have under contract a Highway project with VDOT as a Prime. The State Contract Engineer or their designee has the authority to waive this restriction on a project-by-project basis based on the firm's demonstration of evidence of *ability**. Such waiver must be obtained, in writing, by the firm prior to bidding on that project. Should the firm receive a Contractor's Performance Score (CPE) average score below 75, the State Construction Engineer may administratively revoke the firm's prequalification privileges.

Right to appeal

If your firm is not satisfied with the Prequalification Level assigned to your firm, it should **immediately** contact the Prequalification Office at 804-786-2938. If a firm would like to appeal, "The Prequalification Appeals Process" is located in the "Rules Governing Prequalification Privileges" on our website.

Expiration and renewal
