

Interstate 81 In-Place Pavement Recycling – 2011

The I-81 In-Place Pavement Recycling Project will not be able to accommodate on-site news media visits during the I-81 single lane closure periods. This is due to the very small work area, high worker traffic and activity, and critical contractor work schedule.

Contractor staff will be available to drive news crews through the work zone without stopping. Virginia State Police will be on site to monitor traffic and ensure the work zone remains undisturbed by unauthorized vehicles and individuals.

On-Site Visits

Project update interviews can be prescheduled to occur on Thursdays at 2 p.m. These visits must be pre-arranged. Please use the following contacts if a Thursday visit is needed:

Sandy Myers
Public Relations Manager
VDOT Staunton District
811 Commerce Road
Staunton, VA 24401-9029
Office: (540) 332-9201
