Route 7 Corridor Improvements Project
Lane Closures and Traffic Changes

March 15-21, 2020

Crews will be performing storm pipe installation, excavation and fill operations, bridge work and other construction-related activities during the daytime and overnight hours on March 15-21 along eastbound and westbound Route 7 and on Reston Parkway. Please see details below.

All work is subject to change based on weather and schedule. Please use caution and be alert to signs, as well as potential flagger or police direction in work zones. Slow-moving vehicles and equipment may be entering and exiting the road. Drivers are reminded that the speed limit along Route 7 has been temporarily reduced to 45 miles per hour in active work zones between Reston Avenue and Jarrett Valley Drive.

Please note that Washington Gas crews are also working along the corridor as part of the concurrent pipe replacement project. Find the latest information on travel conditions and work zones by visiting 511virginia.org or downloading the Virginia511 app.

Left or right lane closed for fill operations.

---

VDOT is improving almost seven miles of Route 7 between Reston Avenue and Jarrett Valley Drive in Fairfax County. The project will widen the road from four to six lanes, add shared-use paths, and make substantial intersection and other improvements along the corridor. These improvements will increase capacity, improve safety and traffic flow, and enhance mobility for cyclists and pedestrians, all in conformity with Fairfax County’s Comprehensive Plan. To stay informed and to sign up for email updates and alerts, visit [connectroute7.org](http://connectroute7.org). For project updates, please visit [connectroute7.org/news_updates/default.asp](http://connectroute7.org/news_updates/default.asp).
