ROUTE 921 BRIDGE REPLACEMENT IN ROCKINGHAM COUNTY BEGINS MARCH 18

STAUNTON – The Route 921 (Lairs Run Road) bridge over the North Fork Shenandoah River in Rockingham County is scheduled to be replaced beginning Monday, March 18. Route 921 is a dead-end road just off Route 259 (Brocks Gap Road) in the Fulks Run area. It will remain open throughout construction, with occasional flagger traffic control during daylight hours.

The existing Route 921 bridge is a single-lane, low-water structure that was built in 1974. The new bridge will be of similar size but will be capable of accommodating modern traffic loads. The new bridge and its roadway approaches will be about 50 feet north of the current bridge, which minimizes traffic impact during construction.

On January 23, 2019, the Virginia Department of Transportation awarded a $1,593,020.40 contract to Kanawha Stone Company Inc. of Nitro, W.Va. The project has a contract completion date of September 18, 2020. All work is weather permitting.

Virginia traffic alerts and traveler information can be obtained by dialing 511. Traffic alerts and traveler information also are available at http://www.511Virginia.org.

The VDOT Customer Service Center can assist with reporting road hazards, asking transportation questions, or getting information related to Virginia’s roads. Call 800-FOR-ROAD (800-367-7623) or use its mobile friendly website at https://my.vdot.virginia.gov/. Agents are available 24 hours-a-day, seven days a week.

The Staunton District Twitter feed is at @VaDOTStaunton. VDOT can be followed on Facebook, Flickr, Twitter and YouTube. RSS feeds are also available for statewide information. The VDOT Web page is located at http://www.VirginiaDOT.org.

The VDOT Staunton District serves Frederick, Shenandoah, Clarke, Warren, Page, Rockingham, Augusta, Highland, Rockbridge, Alleghany and Bath counties.
