REVERSIBLE HOV EXPRESS LANES ON I-64 AND I-564 WILL CLOSE FOR EQUIPMENT UPDATE

Closures scheduled for Saturday, Oct. 17 and Saturday, Oct. 31

NORFOLK – The Virginia Department of Transportation (VDOT) will close the reversible high-occupancy vehicle (HOV) Express Lanes from I-64 to I-564 to install equipment updates, on Saturday, Oct. 17.

Crews are scheduled to close the eastbound and westbound reversible HOV Express Lanes as early as Saturday, Oct. 17, at 9 a.m. until approximately 9 p.m. that day.

As the installation and updates take place, VDOT will be performing testing of the newly installed software. Motorists can expect to see the gates of the Express Lanes open and close periodically throughout the course of the day during this testing.

Crews will repeat this process again on Saturday, Oct. 31, from 9 a.m. to 9 p.m.

In addition to this work, Express Lanes closures are also scheduled for Oct. 19-22, from 8 p.m. to 3 a.m. for additional tolling system maintenance.

This work is dependent on weather and subject to change.

Motorists are encouraged to visit www.511virginia.org, call 511, or download Virginia's free [511 mobile app](#), for current traffic and travel information. To learn about all VDOT Hampton Roads' projects, visit: <https://www.virginiadot.org/projects/hampton%20roads/default.asp>.
