

Selecting Your New Certificate

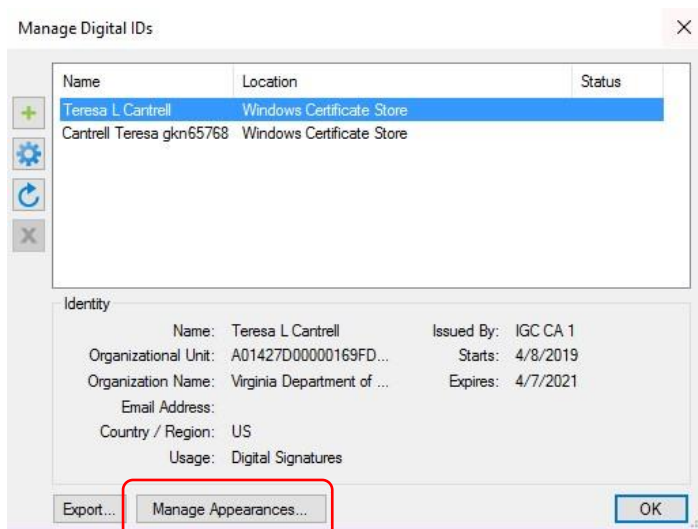

If you have recently renewed your certificate then you need to change the certificate that is being used. This is a simple task – however you will need to set the appearance of your signature. To update your certificate you will need to do the following

- Create a new PDF in Bluebeam Revu
- Click Tools
- Signature
- Digital IDs

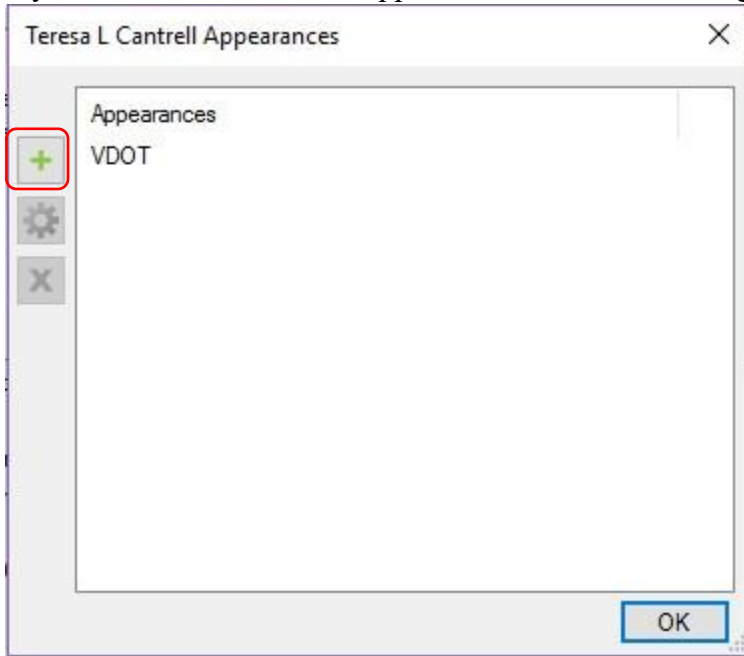

- Find your certificate (Firstname Lastname)
- Select the certificate that has not expired (Organization Name should be IdenTrust and the expiration date)

□ Click on Manage Appearances

- If you do not have a VDOT appearance then click on the green plus button to create one

- Set the appearance as shown below

- Once you have completed the above steps you will need to sign documents and select the same certificate from the dropdown that was previously located.
